# ARTIST BIO

Tu Ez is a Toronto-based independent artist blending melodic rap, R&B, pop and dance energy into records made for city lights, movement and repeat plays. His sound is built around memorable hooks, smooth melodies and an atmosphere that moves between confidence, romance, celebration and late-night tension.

The current release campaign begins with C'mon Let's Go, arriving August 21, 2026. The bright, cinematic single introduces one side of the Tu Ez sound, followed by Hypnotic, a darker record shaped by magnetic attraction, luxury and Toronto after dark. Across the music, cover art and visuals, the focus remains on creating a complete mood that listeners can enter and feel.
